A black and white photograph of a modern interior space. The background features a wall with a brick-like pattern. In the center, there is a white, multi-tiered bookshelf with a central cabinet door. The shelves are filled with books and decorative items. In the foreground, two upholstered armchairs with patterned cushions are positioned facing each other. To the right, there are several potted plants of varying sizes. The overall atmosphere is clean and sophisticated.

OUR CONTEXT: WHO, WHAT, WHY AND HOW

About us

- Boutique firm, ~1800 Cr AUM, ~250 families
- Private, independent ownership (Manish Gupta and close friends)
- Team incentivized as owners - 25% of PBT shared with team

Desired outcome

- 15% post fee returns, for long periods of time. Under assumption of 11% nominal GDP growth
- Never risk ruin despite promise of very high upside

Deliberate calm

- A calm mind can see things with more clarity. Fewer errors.
- Opportunism (targeting short term gains) sows the seed of long-term underperformance.
- Focus on what we can control. Even if we know events with perfect certainty, we cannot predict how stock prices will react.
- Avoid entrepreneurs who do not inspire trust
- Trust “good process” to work long term if the thesis is intact.
- Accept draw-downs with equanimity.
- Work with partners who are aligned with above

WE ARE NOT RIGHT FOR EVERYONE

Please consider us only if you are willing to give us a minimum 5-year time horizon.

Definition of success: 1.5% Alpha over BSE 500 TRI over 5 years. We expect to lag markets in a raging bull market.

Embracing some illiquidity will be key to Alpha Generation and could cause volatility. If you choose to withdraw prematurely, exit may be at discounted prices.

Minimum 2.5 Cr investment size per family.

A PMS has “time value of money” tax disadvantages over a MF. It has advantages of smaller size, customization, less stress during times of market turmoil.

We are right for you if you are looking for consistent, stable returns over long periods of time and can be patient.

OUR PROMISE TO PARTNERS

Prudent risk taking + Ruthless long-term thinking.

Controlled pace of Solidarity growth to not lose focus on existing clients and start deploying capital at any price.

100% CIO skin in the game – complete alignment of positions

Customized portfolios for prices at time we accept capital.

Transparency

- Detailed Q Letters
- Blogs on relevant topics
- Quarterly review calls (group)

WE HAVE TWO SCHEMES WITH SAME STRATEGY THAT DIFFER ON LIQUIDITY AND CONCENTRATION RISK

LONGEVITY + ASSYMETRIC PAY-OFFS + PATIENCE (4)

OUR PROCESS (1)

IS THIS A COMPANY WE WOULD LIKE TO OWN WITH OWNERSHIP MINDSET?

- Favourable industry structure
- Sector/niche Leadership
- Edge/competitive differentiation
- Ability to re-invest for growth (ROE > 15%)

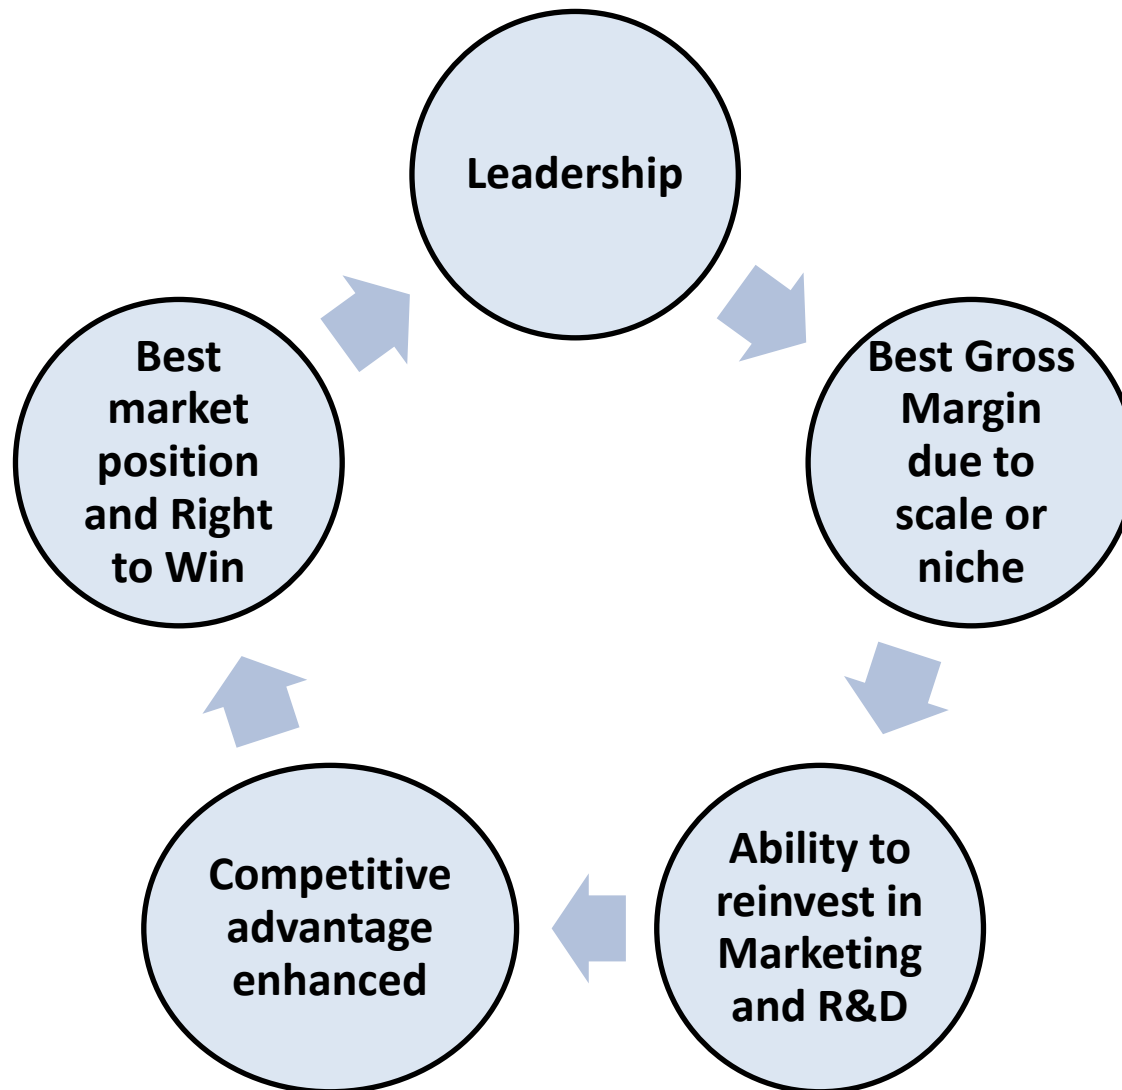

- Large addressable opportunity
- Industry with structural tail winds of growth

- Vision backed with granularity in thinking and “feet on the ground”
- Team depth beyond promoter
- Focus on few business lines
- Disciplined on Capital Allocation
- Prudent use of leverage

COMPOUNDING REQUIRES A LARGE AND GROWING OPPORTUNITY

	Secular Themes of interest to us
1	Opportunity to gain market share in global supply chains: Manufacturing/Services
2	Pvt Sector Banks who will gain market share
3	Life Insurance: trusted brands, strong distribution
4	General Insurance with preference for adoption of Health Insurance
5	Digital Business Models and enablers of Digital
6	Mitigation of inequality
7	Discretionary consumption – “Affordable luxury”
8	Financialisation of Savings
9	Formalization of the economy
10	Thrust on Clean Energy

LEADERSHIP OFTEN LEADS TO A VIRTUOUS CYCLE THAT RESULTS IN A SUSTAINABLE EDGE

OUR PROCESS (2)

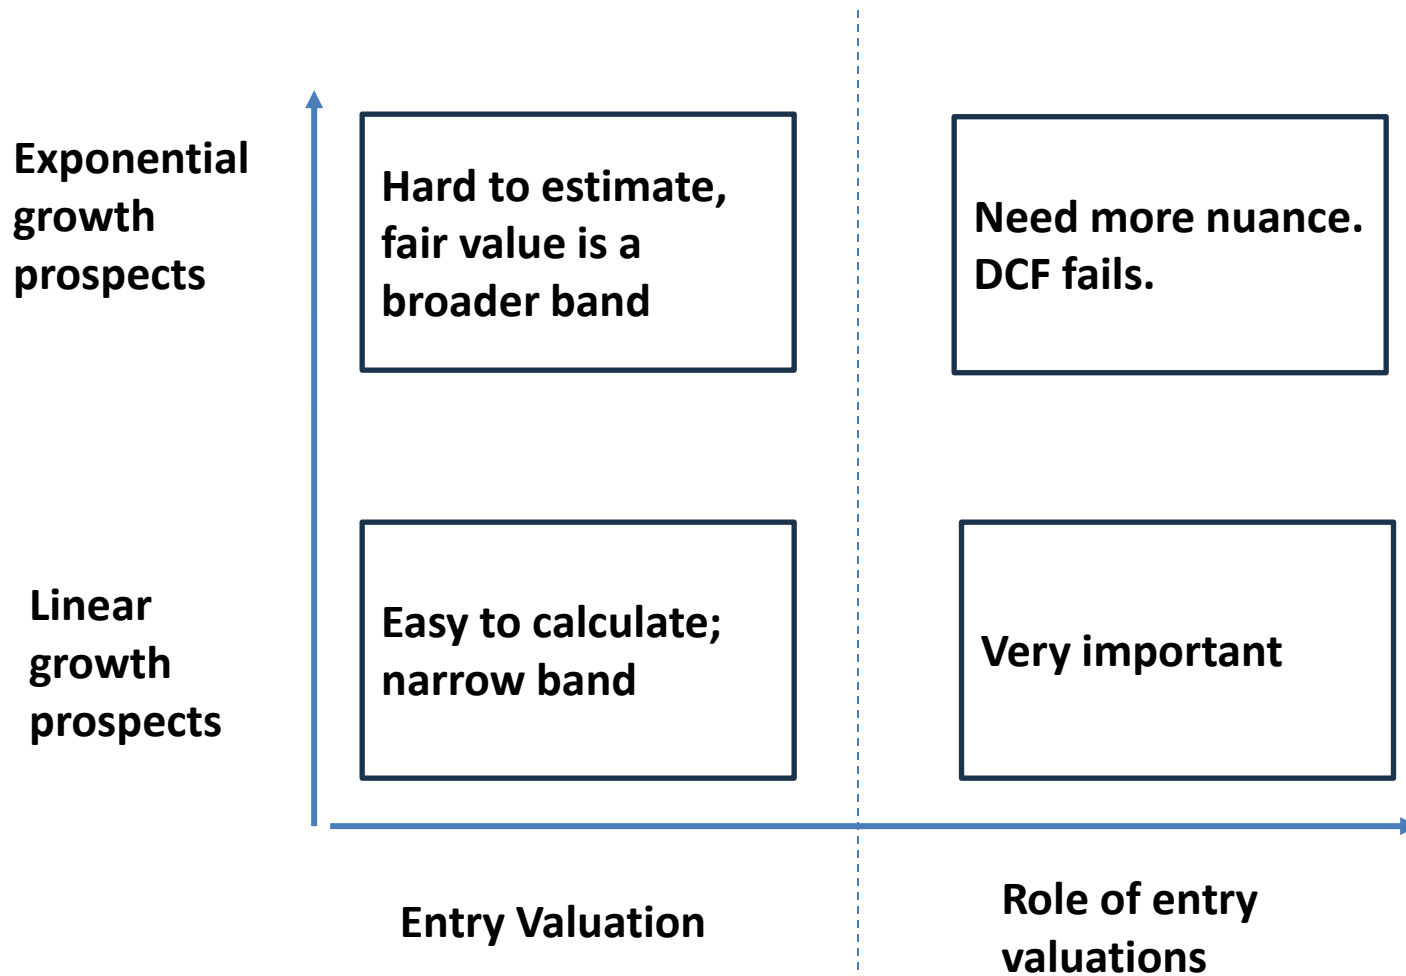

Valuation is both art and science. We believe in being broadly correct, rather than aim for precision

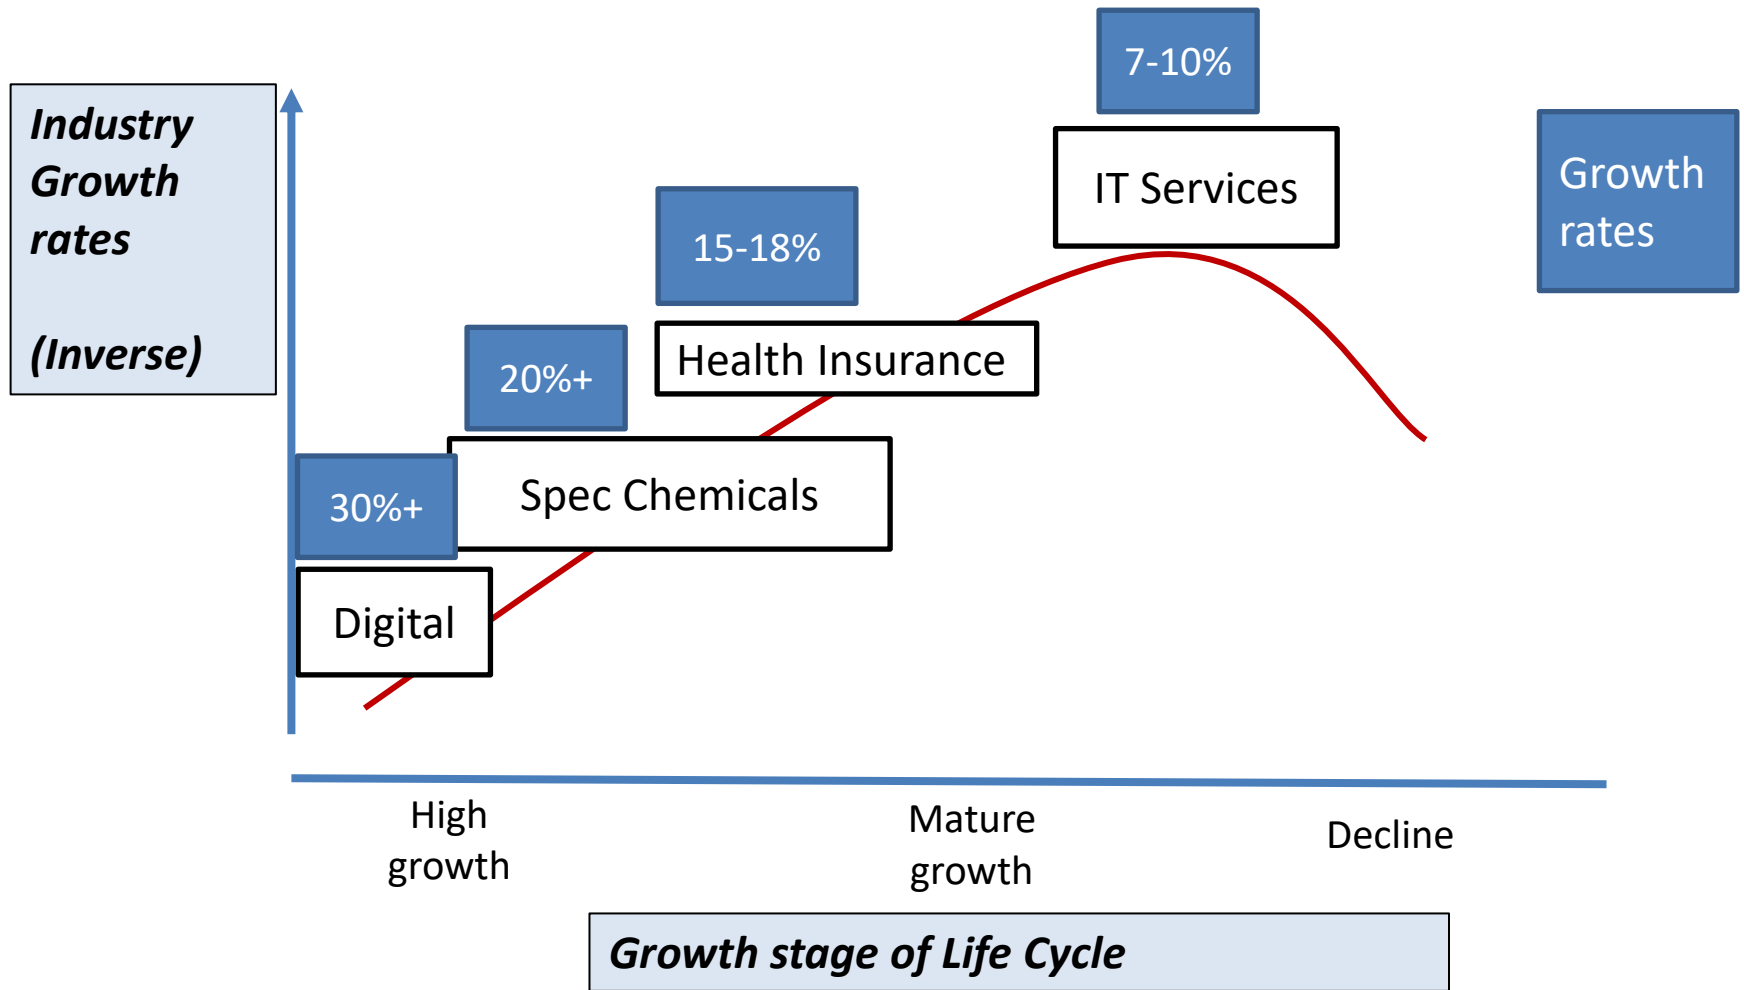

Tools used

- Qualitative: where are in the growth life cycle, Optionality/longevity in business model, behavioural cycle?
- Quantitative: DCF– Cost of Capital, Growth, ROE, longevity
- Wisdom of crowds

FAIR VALUE IS VERY CONTEXTUAL

VALUATIONS VERY SENSITIVE TO WHERE IS THE SECTOR IN THE GROWTH LIFE CYCLE?

EXPONENTIAL GROWTH PROSPECTS NEED MORE LEE WAY IN VALUATION BANDS

OUR PROCESS (3)

Is this a company we would like to own?

What would be a fair price?

What is the right position size?

- What bucket?
 - Clear Leader
 - Emerging Leader
 - Special Situations
- Liquidity
- Initial position size
- When to add

PORTFOLIO CONSTRUCTION: EXECUTING THE IDEA

Can we see, with reasonable confidence, a path to our desired return over 5 years ?

What is the variance perception we have over the market? What do we see that the market does not? What are we willing to do that the market is not?

POSITION SIZING: WHERE IS THE COMPANY ON ITS EVOLUTION ?

Exponential growth/Kicker

Longevity/Stability

	Phase 1	Phase 2	Phase 3	Phase 4
Clear Leaders:				
Emerging Leaders:				
Special Situations				
Stage of company evolution	Distressed valuations However, no clear edge	Deepening foundations Widening the moat	De-risked business model Depth in leadership Resilience	Flywheel starts spinning.
Position sizing	<10%	15-20%	40-50%	35-40%
Good liquidity	5%	5%	6-8%	10-12%
Poor liquidity	3%	3%	4-5%	8%

RISK MANAGEMENT

Buying Right

- Don't invest in what we don't understand
- Avoid complexity and poor governance
- Use check lists
- Position sizing - Increase size of bet with conviction and liquidity

Constant Vigil

- Track progress of Financial and Operating variables
- Track capital allocation decisions of surplus cash flow
- Track valuations

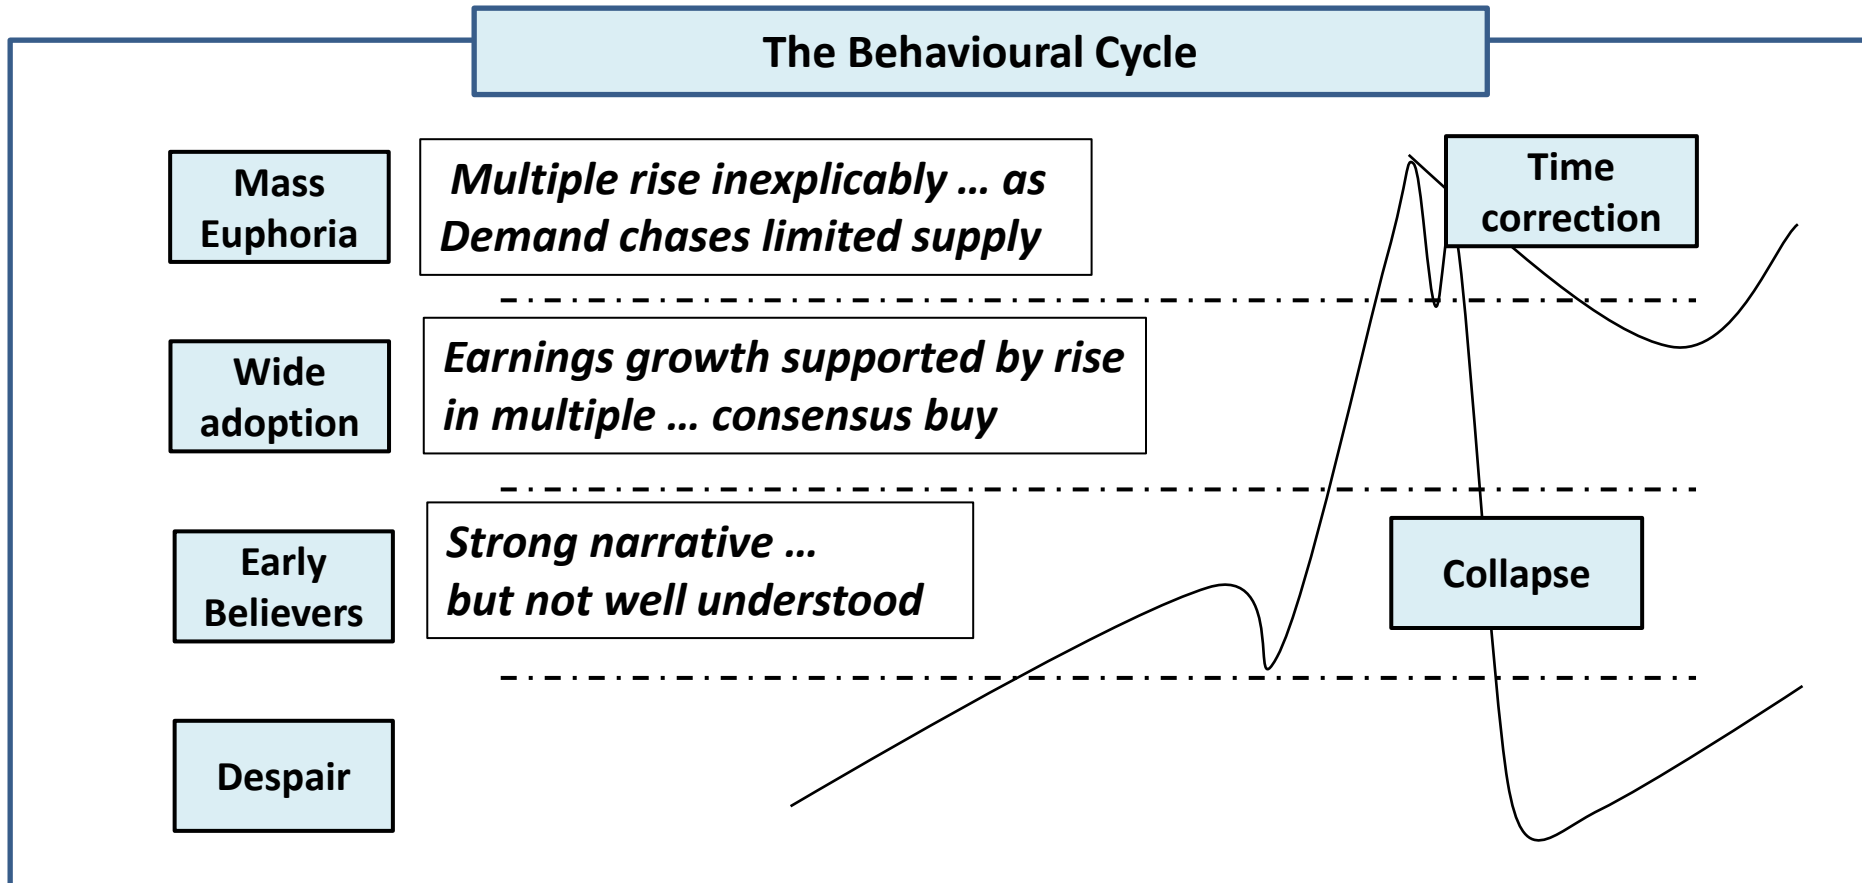

Selling Right

- When facts change that requires us to change our views
- When we encounter evidence that our analysis is wrong
- Exit/trim during euphoria – Bull case IRR falls below NIFTY returns estimate
- Ability to re-allocate capital to a significantly better opportunity

RISK MANAGEMENT: INVESTMENT CHECK LIST

GROWTH	<ul style="list-style-type: none"> • Large and growing opportunity + Benefitting from secular tailwinds • No threat from disruption 		
EDGE	<ul style="list-style-type: none"> • Favourable industry structure and eco system • Right to win. Leadership or domination of a niche. Relative market share • Scarcity, permanence, dependability • Reflected in high ROCE • High OCF generation – Capital light or can self finance growth 		
MANAGEMENT	<ul style="list-style-type: none"> • Long term orientation on a focused business definition • Capital allocation discipline. Balance sheet discipline • Past governance record + Direction of travel 		
VALUATION	<ul style="list-style-type: none"> • Growth + Exit multiple = targeted IRRs. Time to close gap • Longevity of growth; durability of franchise, predictability of growth 		
RISK MGMT.	<ul style="list-style-type: none"> • Understand sources of fragility • Invest in what we understand + Position sizing 		
EXIT STRATEGY	<ul style="list-style-type: none"> • Hold through corrections, Exit during euphoria 		
Desk research	Field visits	Mentorship from domain experts	Management meetings

ENTRY AND EXIT DECISIONS MUST LOOK AT WHERE COMPANIES ARE IN THE BEHAVIOURAL CYCLE

A disciplined approach could underperform in short term if one does not participate in euphoria

MEAN REVERSION OF VALUATION MULTIPLES A REALITY

RISK MANAGEMENT: ONE SHOULD EXIT ON VALUATION EXCESSES

THERE IS NO ONE RIGHT WAY TO INVEST

LONGEVITY + ASSYMETRIC PAY-OFFS + PATIENCE (1)

Strategic and core to what we do (>90% of the portfolio). Ownership mindset.

- **Longevity**. High probability but moderate IRR prospects, for long periods of time.
- **Asymmetric Growth**. Very high IRR prospects, lower probability than above.

Opportunistic. When opportunities above are not available at a reasonable price. Renting mindset.

- **Cigar Butts/Renters**. High IRR possibilities but only for low duration

SOLIDARITY: GROWTH SINCE INCEPTION
